Cell Woundings

Background: Days of Awe and the Collective Process and the Group

Message 1 wrote you about this problem about the DOR. The abuse of power. It seems to not affect the Gov. and others in her Cabinet/Department. There was an article in the Times/Tx reporter about the "marginalized employees" and after they sent, it seems to get worse daily. The Gov. is now watching in the halls that women early to catch the train home in Rio Rancho/Mesaquite, are all employees who have family have to wait until 7:30pm time to come home. Some had modified schedules. Now later, Times is stopping all of this, with the help of the Gov. I wish somebody could look into this abuse of power, because she is driving people to change the position at the DOR. This is never emerging to the extent. I hope the Governor is not behind this. She seems to do a good job, but somebody needs to stop this abuse. Money is very low, employees afraid to go to work at DOR. Dr. Torres worries at people and degrades to the point of humiliation. This is not a professional woman running this Dept. she is more like a dictator. It's the DOR for NM the largest office in State Government. Please somebody get back to me. Maybe the Governor can meet with the staff at DOR and hear their concerns, but somebody needs to get back to me and lower, times, later. This very bad. HELP. SUE, HAYDAR, MAHJIB Y. THE BOAT IS SINKING GET THE POINT
